Another Invention.

Dr. W. E. Bixter has invented a hand oven for campers' use, which is also a kit case suitable to carry all the cooking utensils used with it, and can be separately or in connection with the convertible table, which the Doctor patented some time ago, being made so as to fit into the table when converted into a kit case. This last invention is made of sheet iron with the inside case of bright tin so as to reflect the heat. The legs are detachable, can be packed in the oven when not in use, and when in camp they can be fitted into place in a second and the oven gotten ready for baking, only a few coals having to be raked under it from the camp fire. When packed the whole affair can be readily carried in the hand or slipped under a buggy seat—occupying very little room itself, but capable of holding any quantity of small articles. The Doctor will take out a patent upon it at once. A large firm in Chicago has taken a hold of and is manufacturing the convertible table for the market and have written for the oven to be sent on to them at once that the two may be turned out together, as they think both will prove great sellers.

Cheap Property.

Messrs. L. B. Marshall & Co., real estate agents, sold on Monday to Circuit Clerk Thomas B. Ford

the brick house, with eight acres of ground attached, in Bridgeport, known as the John Jenkins property, for \$1,450. The house could not be built to-day for less than twenty-five hundred dollars and Col. Ford got a bargain.

Wm. H. Wheeler,

A prominent contractor and builder, of Adams, N. Y., was a great smoker for years. He liked his cigar but did not like the serious throat trouble that began to come upon him in the shape of a bunch or growth. As he expressed it he was afraid he was going to have a Grant throat. At this stage he began using Dr. Hale's Household Ointment, applying it directly to the bunch inside his throat several times each day. A few weeks of this treatment entirely cured the bad throat and Mr. Wheeler states that it worked a most wonderful cure in his case and that he regards Dr. Hale's Household Ointment as the greatest medicine of the 19th century. It cures all inflammation, 25c. and 50c. boxes at P. H. CARPENTER'S drug store.
